TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
By using GILLARD'S SHEEP DIP the outlay will be repaid One Hundred-fold by the Improved Condition of the Sheep, and the increased Weight and Quality of the Wool All Sheep owners should therefore try the experiment, if only on a small Flock.
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

CURSO FORZOSO ABROAD.

If the efforts of our statesmen to abolish forced currency and bring the country back to specie payments meet with every possible opposition and censure from those here who are interested in maintaining gold at a high premium, at least the people in Europe view the matter in a different light, and the following extract from *Herapath's Railway Journal* will convey to Argentines the opinion in high financial circles in London on the question:—

We are in the habit of saying the number of paper dollars to the pound has fallen 10, from 149, at which they were this time last year, to 139, but a telegram has been received this week informing us that they have very recently descended to 127, or only 5 above par, the par value of the paper dollar being 122 to the pound.

We have long said that paper and gold in the Argentine country would come to a level, as they have in the United States. Paper has now arrived at that standard, saving 5 dollars on 122.

The fact is most important to the railway and tramway interests of that country.

It is also important to the country itself, and its creditors. It affords a further assurance, if any were wanted, of the perfect good faith of the Argentines towards their bondholders. We were almost the only journal in this country which maintained a few years back that the Argentines would keep faith, and pay their way, and so they have. When their 6 per cent bonds were at 30 they never failed to pay the full interest and apply the heavy sinking fund. Now that those cloudy days have passed away, the country is at peace, prosperity in a full blaze, and money matters are easy, of course the case of the bondholders is better than ever. The old 6 per cents have reached a premium. But we cannot say that the Argentines have managed their financial matters well as to raising new loans. The recent Paris loan of 12,000,000 hard dollars (£3,000,000) for railway extension was raised at 82, and the more recent London loan for similar purposes of £2,450,000 was placed at 91 per cent. Both these prices seem high for 6 per cent. Argentine loans, especially when the old loan was at par or a premium. The last London loan, issued at 91 price, is really better than the old 6 per cent loan, which commands par or a small premium, since the heavy accumulative sinking fund of the old loan is rapidly paying those bonds off at par. The 1868 6 per cent loan has already been nearly paid off, and will be entirely extinguished by 1889. Therefore those 6 per cents can never go to much premium. But the new 6 per loan, whose security is just as good, has an accumulative sinking fund of 1 per cent, which discharges the principal at par in 33½ years. Therefore these bonds may reach a higher premium than the old, for their time of repayment at par is much more distant.

The credit of the Argentines being so sound and the prosperity of the country so great, we should have thought that 6 per cents could could have been placed at par. The Buenos Ayres Great Southern Railway 6 per cent debenture stock is at 120 with the dividend just off, and the Central Argentine Railway 6 per cent debenture stock at the same price, at which the purchaser only gets 5 per cent for his money. The Government security may never stand so high as the railway, but there would have been a wide difference if the Government 6 per cent stock had been placed at par, the railway 6 per cents commanding 20 per cent premium.

THE BUDGET FOR 1882.

The National Government has laid the Budget for next year before Congress. It will be seen that there is some increase proposed in the taxation. The estimated expenditure is 24,618,034 patacons, while the Ways and Means are expected to produce 24,632,000. The increase in taxation is intended to meet the expenditure in connection with the federalization of the city. The following are the figures:—

AGRICULTURE IN THE NORTH

Mr Pierre Andrieu has recently published in Paris a neat pamphlet on agriculture in the North of the Argentine Republic. We have seldom experienced so much pleasure in reviewing a book as in the present instance; and although the main object is to foment immigration to the successful Ocampo colony in the Chaco, the intending immigrants are first made acquainted with all the disadvantages and deceptions which often attend their first efforts. There is not a word of exaggeration in the eighty pages of this important pamphlet. The author first portrays in his preface the nature of agriculture in the Argentine Republic, and it is stated that however admirable nature may be, however favorable the climate and prolific the soil, the latter will yield nothing, if there lack energy, patience and industry; that even under these conditions, in spite of the experience and efforts of the immigrant, he often fails, unless he can dispose of funds to recoup the losses of a bad year. Capital and labor are necessary to insure success, and it is only too true.

The rapid development of the Argentine Republic and its relations with France, its physical constitution and political condition are described in the first chapter in a hurried manner; the climate is carefully studied and the barometrical observations are many.

A graphic description of the Chaco Austral forms the subject of the second chapter, and some remarks are appended on the advantages which will arise from the proposed railway through that territory, and show its great importance, both to colonization and trade in the North. The Ocampo colony occupies a prominent part of the pamphlet; a detailed description of same, its history, sacrifices and prospects go to shew what private enterprise can effect. And the contrast is strong, when we contemplate the utter failure of so many other official enterprises not far from that part of the country. The quality of the soil seems to be a very important characteristic in the eyes of French laborers, since there is a detailed chemical analysis of the Chaco vegetable soil; same is compared with that of Roumania, and Podolia in Russia. The greatest quality of the Chaco humus consists in its great absorption of moisture. Ordinary soil absorbs 50 litres per 100 kilograms of dry earth, good garden soil 89 litres; pure humus 190 litres; the Chaco soil absorbs as much as 140 litres.

The meteorological observations yield most interesting figures, and compare very favorably with those in the south of France and in Algeria. But the great point of the pamphlet consists in the advice given to those who intend emigrating: a budget of the expenses of the first year's settlement amounts to 7,000 francs: herewith a family of five persons can be maintained during a twelvemonth, a comfortable house built, and all the necessary implements, animals, and seed can be purchased. The colonist is advised to have capital rather than accept advances, which involve payment of interest and many obligations. M. Andrieu very well states, that the colonists will ponder the question, why the colonies managers seek to attract them and what benefits they derive from their settlement? To this he answers that their prosperous settlement increases the value of the land in the hands of the company one hundred-fold, and what they dispose of now at 10 and 15 francs will enable them to sell off the remaining lots at 500 to 1,000 francs per hectarea.

It would be superfluous here to dwell on the varied production of the Chaco, since everybody knows that it yields very nearly everything; wheat, barley, rice, maize, mandicca, all vegetables, fruits, sugar cane, tobacco, mani, sesame, flax, etc. Special importance is naturally given to the cultivation of wheat, tobacco, sugar cane and cotton. The fauna of the Chaco is well-known and needs no comment.

M. Andrieu has succeeded in giving a true picture of the Chaco; he extenuates nothing nor does he set down aught in malice. Advantages and disadvantages, true prolific soil and the greedy locust, all are portrayed to the intending colonist and if he fails in this hemisphere he can only attribute his misfortunes to his own mismanagement or inexperience. The pamphlet is apt to attract the scientific and experienced laborer, with some capital to begin with. That same may invade the Chaco is our sincerest wish,

THE VOLUNTEER REVIEW.

Shortly before five the 1st Battalion Grenadier Guards marched on the ground to assist the Royal Horse Guards, the 4th Dragoons, the 11th Hussars, and the police in keeping the ground, but their task was not a difficult one, as seldom was a more well-behaved crowd ever seen. Soon afterwards the Duke of Cambridge rode on the ground, accompanied by the Horse Guards Staff, and took command of the entire parade. Prince Christian in his capacity of Ranger of Windsor Park, had been riding about for some time superintending the arrangements of his department. A guard of honour, furnished by the 1st Battalion of the Grenadier Guards, and carrying the State colour, now marched into the Royal enclosure, and formed up in rear of the flagstaff. At a quarter to five the troops who had meanwhile been permitted to lie down, received the order to rise, and a few minutes later a salute of 21 guns, fired by the battery of the Royal Artillery Company announced that the Queen had left the Castle, and that the inspection of the 2d Army Corps was about to commence. The order was then given for the officers of the 1st Army Corps to 'take post.' At five minutes past five the Royal procession, with an escort of Household Cavalry could be discerned coming through the Double Gates on the Long Walk and turning to the right to the review ground. The bands immediately struck up the National Anthem, and continued to play whilst her Majesty and those who accompanied her drove up to the saluting point. The procession from the Castle consisted of several carriages, each drawn by four greys, with outriders. In the carriage with her Majesty were the Crown Princess of Prussia and the Princess of Wales. The Duke of Cambridge rode by the

side, as did also the Crown Prince of Prussia, in the magnificent white uniform of of the Russian Cuirassiers, and Prince Christian, as Ranger of Windsor Park, rode in front of the Queen. Two German officers and the French Military Attache were attached to the Commander-in-Chief's staff. In the second carriage were the Princess Louise, Princess Christian, Princess Beatrice, and the Duchess of Connaught. In the third were Princess Mary Adelaide, the Duke of Albany, and Prince Waldemar of Sweden. The fourth carriage contained the two Princesses of Hesse, and Mr Childers, while the permanent Under Secretary of the War Office occupied the fifth and last carriage in the procession. On reaching the flagstaff the Queen was received with a royal salute, after which her Majesty drove down the lines of the first Army Corps, returning immediately to the saluting point. Punctually at a quarter to six the marching past commenced, the united bands of the Brigade of Guards and those of the Royal Artillery and Royal Engineers having previously taken post in front of the flagstaff.

Both army corps marched past in mass of quarter columns, headed by the Naval Artillery Volunteers, who were immediately followed by the Honourable Artillery Company, in which infantry, cavalry, and artillery were represented, and at whose head rode the Prince of Wales, their honorary colonel. The marching past was on the whole most creditable, and although it did not come up to such perfection with regard to dressing and distances as would be expected from so smart a battalion of Guards as was keeping the ground, it nevertheless exceeded the most sanguine expectations of those most competent to judge. The men, with few exceptions, looked clean, soldier-like, and steady, and the marching past was remarkable for the same absence of confusion and for the general steadiness which has before been alluded to as characterising the evolutions of the earlier part of the day. Where all did so creditably it would be invidious to mention any particular regiments as having specially distinguished themselves. With regard to the numerical strength, the metropolitan regiments compared unfavourably with some which came from the country, which, as far as numbers are concerned, would put many of our line regiments to shame. After the last regiment, followed by four ambulance waggons, had defiled in front of the Queen, the Royal procession returned to the Castle, receiving a salute of 21 guns from the Royal Artillery Company. It should here be mentioned that each brigade, after marching past, returned to the original place of rendezvous, whence the different regiments, after a short halt, proceeded to the various railway stations for the return.

The number of spectators was perhaps not so large as might have been expected, but many of the general public were doubtless deterred from going to the review by the difficulties attending railway journeys on such an occasion. As far as society is concerned, it may be said that the whole of London was present. All procurable information tended to show not only that the commissariat arrangements had been successful, but that the commanding officers of the various regiments had expressed themselves as thoroughly satisfied with them. It is also most satisfactory to know that, according to reports received by the Quartermaster-General, the majority of the regiments composing the 2d Army Corps were numerically stronger than had been anticipated from the estimates previously sent in.

Sir Garnet Wolseley gives immense credit to Major Furse, D.A.Q. M.G., on whom has devolved the elaboration of all the military details in connection with the review, and whose exertions have been crowned with such ample success. The fact that the various army corps, divisions, and brigades were commanded by officers of the regular army, and that the staff was also taken from the same source, no doubt contributed materially to the success of the day, and this may be said without in any way detracting from the merits of the volunteer officers themselves, to some, indeed, of whom (who had previously served in the army) commands were given. To conclude, there can be no doubt that our great volunteer army was on Saturday put to a severe test, and that it passed the ordeal with immense credit, far exceeding all anticipation.

EDITOR'S TABLE.

The Cordillera's latest English dates are to the 13th inst. We give the news in our Supplement. We see that Mr. William Inman, the founder of the line of steamships trading between Liverpool and New York, and which bears his name, died at his seat at Upton Manor, Cheshire, last month. He was only 56 years of age. The Irish Land Bill has at last passed the House of Commons, most of the Irish members voting against it. Russia is building a strategic railway on the Prussian frontier, and Prince Bismarck does not seem to like it. In Constantinople a rebellion against the Sultan was feared, and things looked uncommonly shaky in that quarter.

In Congress on Tuesday night, during the debate on the Consolidation Bill, Deputy Saenz Peña presented a project, as an amendment, authorising the Government to issue 6 per cent. Bonds to pay the debt due to the Bank previous to September 1876, and 4 per cent. Bonds to pay the debt contracted on that date, the act then passed to be repealed. Deputy Calvo opposed the Committee's Bill. A hot debate then ensued, and on a division the first article was carried by 40 against 20 votes. Article 2 was carried by 44 ayes. Article 3 was also carried. We gave the text of the Committee's Bill last week, so our readers can refer to their files to see the three articles passed. Yesterday articles 4 and 5 were passed, and a tremendously warm argument over Article 6 was going on up to a late hour, but it was certain to be passed.

The 'Dokes' at the Riachuelo are becoming quite a general topic even in private circles. The National Cabinet had the Municipal proposal in this line under consideration yesterday, but the result has not transpired. Most of the Ministers are opposed to the absurd project, and even if they were not, Congress would never sanction it.

A leading estanciero informs us that there was a hurricane all over the camp on the 5th and 6th, with terrible cold. The increase in the flocks by the fine lambing season has all been swept away by the severe frosts during June and July.

President Vidal's resignation is more persistently spoken of every day at Montevideo, and some say that it will be sent to the Chambers during the extraordinary session which will commence on the 15th inst.

Some 30 Russian emigrants have arrived from Brazil and have been sent to the General Alvear Colony: they say that many more of their countrymen intend coming down here, as they find the climate of Brazil too hot for them.

Can any kind subscriber help us to earn 200 francs (badly required) which we were promised yesterday as a reward, if we can find out a Monsieur Francois Poncet, formerly a barrister and a banker in Metz. He is supposed to be at the present moment in either France or Algiers, and why we have been offered a reward of £8 if we find him in B. Aires is really more than we can explain.

On the 12th no fewer than fourteen young gentlemen will receive their diplomas as Doctors of Law. If the briefless are determined to add to their already overcrowded ranks in this wholesale fashion, why let them. The day will come when they will bitterly repent that they did not select some trade or industry for a career instead of the Bar. No country in the world offers such splendid and numerous chances for young men as this, but the Bar seems to have a fatal fascination for them.

'Carmen' was produced at the French Theatre on Tuesday night with great success. The music is in Spanish style, and very agreeable. The piece, however, is most outrageously long—four acts, and it was eleven o'clock when the second commenced. At what hour the fourth ended we cannot say, as we started for bed before midnight.

The Boundary Treaty with Chile, with a Message from the Government, was laid before Congress yesterday. It was also laid before the Chilian Congress yesterday.

The Municipal edict about domestic servants gives great dissatisfaction all round. The Municipal Inspectors declare that they cannot attend properly to their responsible duties if they are expected to go round taking the domiciles, names and ages of cooks, and coachmen, mucamos and maid servants.

The Minister of the Interior is about to ask Congress for funds to effect a thorough repair of all the telegraph lines of the Republic.

The 'beau monde' is preparing for a series of balls, to be led off by one at Dr Diogo de Alvear's house on the 17th, after which the Minister of Foreign Affairs will give one, then the Progreso and La Plata Clubs, and so on.

The *Imparcial* of Las Flores reports that on Sunday last, a sudden rumbling noise was heard in the Sierras de Vachicha and the rocks came tumbling down from the summit, smashing and knocking fire from each other in their terrific descent to the base of the mountains. Our colleague is unable to explain this very singular phenomenon.

In reference to the increasing social communication between the capitals of the Argentine Republic and the Empire of Brazil, our highly esteemed contemporary the *Rio News* remarks as follows:

"Social inter-communication between the business men of the River Plate and their confreres of the capital of Brazil is becoming frequent. The ruddy cheeks of our Platine neighbours almost cease to attract attention on the Rua do Ouvidor, while the pale face of the Anglo-Fulminensian is not a novelty on the Calle Florida. The Tagus on the 2nd, carried as passengers to Buenos Ayres Mr Finlay Mathieson, of Messrs. P. S. Nicholson and Co., Mr William Wetherhed of Messrs. Johnson and Co., and Mr William R. McNevin, the popular broker of the Rialto. These gentlemen will doubtless receive the hospitable reception usually extended by our open-hearted friends of the Plate to their kindly disposed visitors, and will return to the Corte impressed with the social, commercial and political growth and well-being of our vigorous neighbours."

The telegrams from Valparaiso are decidedly serious. Our colleague *La Prensa* has one to the effect that 'Lima is threatened by the guerillas,' and the inhabitants flying to Callao. This is most unexpected news.

There was another South Pole conference at the Geographical Institute last night. Lieutenant Bove will be here in a week or two.

An unfortunate 'sujeto' at Barracas, while drinking deeply to drown his grief for a departed friend, at whose interment he had acted as chief mourner in the morning, declared that man was immortal and would never die so long as he drank enough cana. As he uttered the words, he fell back in his chair and expired in a few moments. A sad and revolting end.

The *Pampa* mentions a curious case. The owners of open or 'valdio' sites were summoned some months ago by the Municipality, to enclose their properties with walls. One proprietor was away in Europe at the time, and when he came back he found that a house had been built on his site, and the house, site and all sold at auction for $60,000, although the land alone was worth double the money. It is only in dear old Buenos Aires that such very queer things can occur.

Chile has applied for 100 square metres of space at the Continental Exhibition.

Messrs. Bianchetti Bros. have in hands a large weighing machine, to weigh all ths animals at the coming Cattle Show at Palermo. This is a decided reform in our exhibitions of this kind.

Nine hundred fat oxen for this market from San Juan and Mendoza have reached Bragado, and will be sent in by train when they recover from the fatigue of their long journey.

It is said that there will be a general reduction in freights and fares on the Southern Railway next month. Good news this for those living along the line.

There will be a change in the time-table of the Western Railway on the 15th, and two or three extra trains to Moron and Merlo daily. The railway people seem to be stepping out.

Little fires have been rather frequent in the city of late. Yesterday there was another in the 'Good Soup' hotel in Calle Piedad, but no damage was done.

The Anglo-Argensine Tramway has applied for leave to lay down new branches in Calles Cotdoba and Temple. Soon there will not be a street in town without a tramline.

Commander Chiriff has been arrested ih Salto, B.O., on suspicion of conspiracy in favour of Latorre.

The *Nacional* has a telegram from Carhue stating that the report of another banditti raid at Bahia Blanca is false.

Messrs. Pica and Co. have sent to Congress another project for Docks at the Riachuelo. If this kind of work goes on much longer we'll send in the *Standard* project, which we have had by us for years, and which is far better than any other we have seen yet. Mr. Williams asks 50,000 pats, for the 'secret' of his Docks, which would cost £2.000,000. With all the Dock projects now mooted, the country is pretty certain to have no docks at all.

The latest news from London is that the mammoth scheme of Mr Francis Xavier Bravo has come to irredeemable grief, as the London capitalists refuse to advance sixpence on the credit of Bolivia. So much for the Ten Cents War.

National Bank Shares	114½
Old Gas Co. Shares	1,950

The gold market seemed reopening to-day so very large were the operations; over a million of pats sold, and it was quite evident from the business doing that the houses had given their brokers orders to secure gold for the end of the year. The letters received this morning per Cordillera may have had something to do with the attitude of the gold market to-day; affairs in Europe are not very settled, as will be seen from extracts from the London papers, which we give lower down; they had a species of panic on the Paris Bourse last month, after which that market recovered. But many parties on 'Change to-day spoke of their advices from Europe, and some parties held telegrams from London, yesterday's date, which announced a fresh drop there in Treasury Bills. For these and other motives merchants here prefer to pay 2 o/o and secure their gold against all mishap, but some of the best men on 'Change sell for the end of the year when they get their price.

The news from Government quarters to-day was that Minister Uriburu was busily occupied all day about the 20 Million Loan. The offers which the Government at present hold are all based on making an advance in gold to the Bank. The matter is of the very highest importance to this market.

We understand that Minister Uriburu is about to propose to the Chambers a law, authorising the Provincial Bank to open an office in London; a really capital move, and which we hope to see carried out. At this London office the coupons not only on the Provincial Bonds would be paid but also the coupons of the Cedulas. We compliment Mr Uriburu on so progressive a step.

Gold opened at 25.70 and held there all day; cash sales, 43,800 pats. For Saturday 63,000 pats sold at 25.70. For end of month 695,000 pats at 25.70, and for the succeeding months the year 405,000 pats sold at 25.55 and 25.60. Total gold sales, 1,193,800 pats. The gold market rules very hard, and spite of every effort of Government and Bank looks upward.

Cedulas ruled easier to-day than yesterday; prices for cash opened at 100½, and closed at 100¼, with buyers over, 29,100 sold cash. For 31st 20,000 sold at 100¼, and 45,800 at 100½. For remaining months of year free sales at par, and one sale of 10,000 for Sept. at 99⅝. Total sales 229,100, market firm.

Nat. Bank Shares spite of all the push to drive them down resist everything, they opened cash at 114, at which some small lots belonging to outsiders were sold, closing firmer at 114½, cash sales 900; for end of month 2900 sold, opening at 114½, and closing at 115½. For Sept. 650 sold, opening at 112½ and closing at 113. Thus all along the line prices closed higher then they opened.

Mr W. Davidson, who returned from England in the Cordillera was welcomed on Change, he was at the Volunteer Review and says it was a splendid thing. Mr Brydges, the manager of the Prov. Bank, Gualeguay, leaves to-morrow; he reports everything flourishing up there, and the estancieros all doing well.

The sales at the ring were—
For cash 43,800 25.70
For August 11th 5,000 25.70
For Aug. 13th 63,000 25.70
For August 31st 695,000 25.65-70-65
For Sept. 30th 133,000 25.55-60
For Oct. 31st 60,000 25.55-60
For Nov. 30th 50,000 25.55-60-55
For Dec. 31st 10,000 25.55-60-55
Sales, 1,199,800.

Cedulas—

For Aug. 31st A 65,000 100½-⅝
For Sept. 30th A 30,000 99⅞-100
For Oct. 31st A 50,000 at 100
For Nov. 30th A 45,000 100
For Dec. 31st A 10,000 100
Sales, 229,100.

Nat. Bank Shares—
For cash 922 shares 114-⅛-⅛
For Aug. 31st 1,870 shares 114½-⅝-⅛-¼-115 to 116½
For Sept. 30th 650 shares 112½-¼-113
Sales, 3,442.

Old Gas Co. Shares—
For cash 220 shares at $1,950 m/c.

Gold at afterhours ruled hard, and although there was not much done, we always noticed there were buyers on long dates at 25.60.

In Nat. Bank Shares there was a regular stand from under feeling, and after sales and resales, prices closed weak at—
For end of month 113
For cash 113
For end Sept. 110½

The day was a hot feverish one in Bank share circles, all sorts of rumours current about the large holders; one party who holds thousands of shares has been engaging brokers to raise money to pay for them, whilst at the same time he was selling out by other brokers. A sharp speculation for a fall has begun, and shares were largely sold short.

The Italian Bank, as appears by notice, has changed its rate of interest.

The debate on the Consolidation Law continued all day in Congress; up to Art. 6 passed, and probable the whole bill will be finished before debate this afternoon concludes.

Owing to the present price of gold the Prov. Bank rate of exchange was to-day equal to 49⅝ gold. It seems that the Prov. Bank drew for the last mail £70,000 stg.

25 shares, Italian Bank, sold to-day at 30 premium ex dividend.

Two large foreign vessels came alongside the Catalinas mole to-day, both wine cargoes.

The Greeben wool was sold to-day at auction at 79, 70, and 64. Messrs Duggan sold to-day 5,000 ar. at reserved rate. Italian buyer.

We received an important decision by the Courts, which we hold for to-morrow.

Mr Hill, of Tucuman, was welcomed on 'Change.

The Galileo sails to-morrow, a full ship, she takes 120,000 Treasury bonds.

The La Plata and Archimedes are expected in Montevideo to-night.

Mr McNiven and Mr Matheison, both from Rio, were welcomed on Change to-day, they purpose taking a run out to see the camp.

Mr Parish's rooms at the Hotel La Paix were crowded to-day, old friends who are delighted to see him back; he positively looks younger than when he left.

Gas Shares were in great demand to-day owing to the news that the Minister of Interior is about to pay off the debt, 14 millions, due to the Company in Bonds, and a meeting of shareholders will be called to arrange on their distribution.

The new budget was the talk of the Bolsa, and the proposal to put on an additional 1 per cent import and export tax very much censured.

The telegram from the Montevidean Bolsa to-day gave the following—
Correbo III from Genoa
Alice from New York
1,400 bags sugar, 17½
Deuda amortizable, 17½

The Cordillera brings the following important advices from London:—

"The condition of the money market remains much the same as yesterday. The rate for loans to the Stock Exchange for the next fortnight is, as a rule, 3½ o/o, but owing to money being somewhat more plentiful than at the beginning of the month, borrowers have obtained renewals in some cases at rather lower figures. The discount rate for 3 months' bank bills remains at 1⅜ to ½ o/o. The movements in the foreign exchanges were confined to a slight improvement in the Dutch rate, a slight depreciation in the rouble, and a more marked depreciation in the Italian lira. The general tendency was rather against this country, and bills were somewhat scarce.

"Our Paris correspondent telegraphs that almost a panic prevailed for the first hour on to-day's Bourse, the continued realisations and depression inducing an anxiety to get rid of securities before the fall went further; but this soon produced a counter current in the shape of purchasers tempted by these low rates, and the market closed much steadier, though in general at a reduction on yesterday's prices. Five per Cents, still comparatively firm, opened at 119f. 30c. to 32½c., dropped to 119f. 17½c., and rallied to 119f. 25c., being 12½c. lower. Sight exchange on London 25f. 26½c.

The latest financial advices from London are important; we extract the following:—

"An extraordinary general meeting of the members of the English Bank of the River Plate, Limited, will be held on Monday, the 18th inst., in compliance with the requirements of the 39th section of the Company's Act, 1867. The notice recites that "at such meeting resolutions will be proposed rescinding Articles 49 to 51, and Articles 92 to 96, all inclusive, of the Articles of Association, and making new regulations in lieu thereof respectively, and altering Article 142 of those articles; and an auditor or auditors of the Co. for the current year will be appointed."

An official circular to the shareholders adds: "In forwarding to you the notice of the general meeting, which by the Act of Parliament is required to be held within 4 months of the incorporation of the Company, I am desired by the Directors to state that the proposed alterations of the articles of association are of a formal and unimportant character, except the alteration of articles 92 to 96, which are required to bring the regulations of the Co. into conformity with the provisions of the Companys' Act, 1879, in regard to the auditing of the accounts of the bank."

"The East Argentine Railway Company.—

"To the Editor of *The Money Market Review*.

"Sir,—There is now an immediate prospect of the patient shareholders of this railway being fully compensated for their holdings. I have just seen a letter from the Secretary. The Argentine Government have paid over all their back interests up to Dec., 1879, the date to which the accounts were made up, amounting to $108,000, $50,000 of which has arrived, in the year 408,000 pats sold at 25.55 and 25.60. Total gold sales, 1,193,800 pats. The gold market rules very hard, and spite of every effort of Government and Bank looks upward.

"To the Editor of *The Money Market Review*.

"Sir,—The following extract is taken from the commercial news of the B. Aires *Standard* of the 24th May last. I understand that certain remittances have been sent to London on account of the claims of the above railway on the Argentine Government. If so, I submit that some statement should be vouchsafed to the shareholders of the Company, explaining how the matter has been settled and the amount of cash received:—

"The great news on 'Change was from the National Minister of Hacienda's office. This morning the final payment to Mr Thompson of the guarantee on the Eastern Argentine Railway was made, as on Saturday night it was impossible to conclude the business. Telegrams will doubtless have gone to London today announcing the fact."

"I am, Sir, &c.,
"A SHAREHOLDER."

"The traffic receipts of the East Argentine Railway Co., Limited, for the weeks ending the 15th and 22nd May amounted to £807 and £931 respectively, against £520 and £656 in 1880. The total receipts from Jan. 1st to May 22nd amounted to £14,194, against £13,356 in 1880.

"The traffic receipts of the Anglo-Argentine Tramways Co., Limited, for the weeks ended the 23rd and 30th May, show an increase of £15 and £14 respectively, as compared with the corresponding period of last year."

On 26th July the Central Argentine Railway shareholders were to hold meeting, when according to the notice in the paper it was to be moved to change the shares into stock, and to reduce the Board of Directors.

Messrs Nazar & Co. had no bidders at their auction of half a league of land on Rio Negro near Patagones. After the auction the place was sold for 45,000 m/c, which seems cheap. Half a league front on river by a league deep, near the mouth of the Rio Negro.

The *Times* of July 13th publishes the following splendid figures, showing last year's traffic on the Central Argentine Railway. If our stocks rise in England and our credit improves how much we owe to the returns of the Buenos Aires Great Southern and Central Argentine Railways we leave to our readers to say—and let us remind merchants that the earnings this year on the Central Argentine Railway will be immensely higher than last year, owing to the increased traffic caused by the transport of the material for the Government Railways:

"The report of the Central Argentine Railway Co., Limited, for the year 1880 shows a gross revenue of £235,383 against £182,812. The working expenditure and other incidental charges amounted to £105,022, as compared with £107,170. The total now available after providing for accrued debenture interest, paying £39,000 by way of interim dividend, and reserving £16,812 remaining on the capital account, is reduced to £66,769. The Directors recommend the appropriation of another £19,000, making a total dividend of 6 o/o."

Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non-poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

Procederemos a la venta en remate publico a la mas alta postura y dinero de contado, por orden y cuenta de los Sra Ocampo Hermanos, un selecto lote de Moruecos Negretes sangre puro.

Repetiremos aqui algunos datos que hemos publicado en ocasiones anteriores, sobre el origen de estas cabanas por considerarlos importantes para los senores ovejeros amantes a esta bellisima raza.

La cabaña que es hoy propiedad de los Sra Ocampo, fue adquirida por esos senores en el ano 1875 cuando fue vendido por nosotros en remate publico por cuenta y orden de los Sres. Eduardo Olivera y hermanos, que entonces eran considerados como los mejores criadores en la raza Negrete, habiendo fundado la cabana en el ano 1868 con animales elegidos personalmente por el Sr Don Eduardo Olivera en sus viajes por Alemania, observando el sistema mas perfecto de aparejamiento, teniendo su origen de los cabanos de Hochita (Austria) que como se sabe es la base del verdadero Negrete. Mas tarde en 1865 introdujo bellisimos animales de la misma raza, procedentes de la cabana Modenzin, cuya majada ha sido reputada como la mas perfecta y bella, por criadores afamados.

Los rindes de los carneros padres de esta cabana son de 24 a 28 lib., siendo el de las ovejas de 14 hasta 20 lib. por vellon, rinde extraordinario y que solamente se obtiene a fuerza de escrupulosidad que los Sra Ocampo tienen para el aparejamiento de su majada, siguiendo el mismo sistema establecido por su fundador y como es consiguiente renovando la sangre introduciendo los mejores carneros padres de la misma raza que han pedido encontrar en Alemania.

Son pues de este origin los 20 carneros que ofrecemos en venta cuya edad es de 16 a 20 meses de edad, con lana de de diez meses, habiendo entre ellos animales de alta reserva.

Los carneros podran examinarse en nuestra casa Alsina 78, cinco dias antes del remate.

El Sabado 20 de Agosto
A la 1 en punto del dia

Remataremos a la mas alta postura y dinero de contado, por orden de las senores Amade e hijos y pertenecientes a su cabana Laguna del Trigo partido de las Flores.

25 carneros Rambouillet

Algunos ce ellos hijos del carnero Thiers, importado por los Senores Amadeo, de la cabana Imperial y uno de los mejores animales que han salido de aquel establecimiento para nuestro pais, segun datos directos que tenemos de la cabana.

En *El Standard* del 24 de Setiembre del ano pasado se encuentran datos interesantes sobre este esplendido reproductor.

La cabana de los Srs Amadeo e hijos fue fundada hace mas de 23 anos con animales elegidos en Francia y para que los Senores estancieros, deseosos de obtener animales de buen y puro origin, pueden formarse una idea, damos aqui el detalle de las varias espediciones que han sido hechas desde Euaopa por cuenta de la cabana Laguna del Trigo.

Origin de la cabaña de los Sres Amadeo

1857—Recibidos en Francia, enviados por D Saturnino Soriano (padre) y hechos elegir a satisfaccion por intermedio del senor Dupless, ocho animales.

En este lote vino el famoso carnero Luis Felipe que muchas personans han conocido y apreciado,

1859—Recibidos por la fragata Panama, enviados y hechos elegir con especial cuidado en la cadana Imperial por los senores Masneran Dupont en Paris, 2 animales.

1860—Encargados con especial moderacion y recibidos en la fragata Alix por intermedio de los Srs Diehl, Fernau y Ca 20 animales.

1861—Lecibidos por la fragate Pansma y pedidos a los mismos Srs Dhiel, Fernau y Ca con recomendacion que fuesen iguales a las magnificas borregas anteriores, 20 animales y llegaron 26 animales.

1861—Pedido a los Srs J B Vignal y Ca y recibidos por el Buffon 3 animales.

1864—Recibidos por el Jaques Coeur y hechos elegir con esmero en la cabana Imperial por medio de los Srs Charias, Offman y Ca de Paris, 2 animales.

1876—Obsequio de nuestro amigo el Sr D Emilio Duportal, de su bien reputada cabana de San Vicente, 1 animal.

1878—Obsequio del mismo Sr Duportal y tambien de su cabana de San Vicente, un animal.

1879..Elegido y pedido por el Sr D Enrique Meyer, un sot ble carnero, que sirvio mucho tiempo de reproductor en la famosa cabana Rambouillet, animal que no teniaprecio y solo se vendia cuando dos hijos suyos pudieron reemplazarlo, vendos por el Belgrano, por conducto de la casa de los Srs Dilleman y Ca, un animal.

Total recibidos 64 Rambouillet.

Como los Srs Amadeo e hijo nos dicen que creen pues su deber exhibir los titulos que tienen para ser considerados como posesdores de una cabana verdaderamente de sangre pura Rambouillet hemos publicado los datos que anteceden y que nos parecen titulos sobrados para elevarno de todo otro elogio.

Ademas los Srs estancieros los veran 5 dias antes de remate y juzgaran si tienen o no las condiciones del puro merino frances.

El 20 del corriente estaran en nuestra casa Alsina 78.

Remataremos a la mas alta postura y dinero de contado, procedentes de la cabaña "Las Acacias," estacion Olivera, sobre el Ferro-Carril del Oeste, propiedad de los Sres. Eduardo Olivera Hnos.

30 esplendidos Rambouillet Argentinos, carneros del mas puro origen, y cuya base, como todos saben, fueron animales elejidos personalmente por el Sr. Gilbert, padre del actual poseedor de la cabaña en Widerville; haciendo los Sres. Olivera obtenido el actual tipo de sus carneros a fuerza de la prolija seleccion que se ha hecho en su cabaña y a la contraccion e inteligencia empleados durante un largo lapso de tiempo que llego a la altura que hoy tienen los productos de esta cabaña.

En prueba de ello tenemos a disposicion de los interesados la fotografia de los primeros carneros de aquellos padres de la cabaña Gilbert, para que puedan formar una idea exacta de la enorme diferencia que existe con los actuales carneros que hoy ofrecemos en venta.

Cuando se llega a la altura que hoy tienen los carneros de las Acecias, que puede decirse es el ideal y la perfeccion del tipo, no se necesita hacer mayores recomendaciones, tanto mas que los Sres. Estancieros que han comprado estos animales estan muy satisfechos de los resultados que han obtenido.

Podemos asegurar desde ya que esse lote que viene a venta llamara la atencion de los criadores y los interesados pueden pasar a examinarlos cuatro dias antes del remate a nuestra casa Alsina 78.

Venderemos al mejor precio y dinero al contado, 10 magnificas borregas Rambouillet, primer lote de animales que presenta en nuestro mercado procedente de su establecimiento Santa Catalina, en Mercedes, el Sr. Don Domingo Frias.

El origen de esta ovejas es de primer orden, como lo demuestran los datos siguientes:—

El 1863 compraron los Sres Rayces hnos., para su establecimiento La Fraternidad, en el Partido de Lujan, al Sr Don Francisco Halbach en la Cabaña Los Remedios, 986 ovejas ¾ Rambouillet y 20 carneros puros de la misma raza; de estos animales se eligieron 300 piezas de las mejores que fueron servidas por los carneros puros, y dos anos despues, el ano 1865, habiendose aumentado a 400 la tropilla, se hizo una nueva eleccion de solo 50 ovejas, las que fueron servidas por un carnero europeo de la Cabana Imperial de Rambouillet.

Despues de los Sres. Rayces siguieron eligiendo los mejores productos y sirviendose de padres de primer orden, entre otros el carnero de los Sres. Olivera que obtuvo el primer premio en la Exposicion de Cordoba.

Es sabido que el Sr. Frias ha seguido con mucha prolijidad mejorando la cabana, comprando siempre padres superiores como lo es el magnifico carnero 520 del Sr Van Homeyer, por el cual vienen servidas las borregas presentadas en venta.

Estos animales son criados a campo y se distinguen por sus formas, tamano, lindo tipo y finura del vellon.

Mrs S. A. Allen's World's Hair Restorer

The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty
IT IS NOT A DYE
It ever proves itself the natural strengthener of the Human Hair.

THERE are two special qualities which destroy and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.

Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum

To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.

Because it is made from Choice Materials and prepared with the utmost Care and Skill.

Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.

Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.

Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.

Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR
Its Beauty can be Restored and Preserved.

"Beautiful Hair, Nature's Crown, Luxuriant and Beautiful Hair"

It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

The Cordillera's Mails.

London, July 13th.

The Committee on the Land Bill resumed the consideration of Dr Lyons's amendment to the Reclamation Clause (25), which proposes to empower the Land Commission to purchase waste lands and to allot them to persons of approved character, to whom the Board of Works may make advances. Mr Pease strongly opposed it as an entire departure from sound political and economical principles, risky to the taxpayer, and injurious to the permanent interests of the country. Mr E. Collins also spoke against the proposal. Mr M'Carthy, in supporting it, ridiculed the fear of departing from political economy after what had been done in the Bill; and as to the loss to the British taxpayer, he said it would serve him right, as it was to please him that Ireland had been misgoverned. Mr O. C. Power spoke in the same strain, declaring that if the proposal resulted in a loss to the Exchequer it would only be historical justice. Mr Gladstone said the determination of the Government not to consent to this amendment was final and absolute; but even if it were not, he doubted whether it would be possible for them to persuade Parliament to accept it, although it had reluctantly adopted many distasteful proposals in deference to the Government. Protesting strongly against the ungracious tone of Mr M'Carthy's speech, he argued that the nature of the operation rendered reclamation most unfit for the State to undertake. It was, of all enterprises in connexion with land, the most slippery and the most hazardous, and it had only succeeded when undertaken by private persons, and with minute supervision of details. Mr Chaplin remarked that if Mr Gladstone's argument had any force at all, it was fatal to the clause altogether, and it was a good deal too late in the day to object that the proposal might involve the State in loss. He supported the amendment because hitherto the Bill had done nothing to remedy the worst evils of Ireland. Major Nolan and Mr Villiers Stuart supported the amendment; and Mr Parnell warned the Government that without some plan of this sort their Bill would fail to touch the overcrowded districts of the West of Ireland.

A French transport has arrived with troops from France, and has embarked six pieces of artillery at Goleta. She is now preparing to leave for Sfax. There is no fresh news from the coast.

A despatch from Algiers announces that the insurgent chief, Ben Amema, with 1,000 Arabs, made two unsuccessful attempts on the 9th inst. upon the town of Kreider, which was defended by three companies of French Rifles. The insurgents fled towards the south-east with the loss of 250 men.

The French ironclad Golisonniere, with Admiral Contad on board, anchored in the roadstead on the 8th inst., exchanged salutes with the town, and afterwards left. A Turkish war vessel arrived on the 9th with Krupp guns, arms and ammunition. To day a Turkish ironclad arrived, after being closely watched and followed by a French war vessel from Crete to Benghasi on her way to Tripoli.

The *Golos* to day announces that some cases of Siberian plague have appeared in the environs of this city, several horses and cattle having already died from the disease. No fatal cases have, however, occurred up to the present among the workmen or peasants.

All the Jewish inhabitants of Novo-Tcherkask have received orders to quit the town by September 13th next.

A student named Starinkevitch will be tried to-day by the court-martial of Moscow for a political offence. The accused has declined the assistance of counsel for his defence.

The semi-official *Journal de St-Petersbourg*, referring to-day to the intelligence from Central Asia, recently published by a London morning paper, contradicts the statement that negotiations were proceeding between the Russians and the Merv chiefs, and adds—

"Russia seeks no extension of territory, and the only question at issue is to obtain a more settled frontier in those regions. With this object negotiations will be carried on with Persia, as the country directly interested in the matter, and there is nothing in this state of affairs that can excite any jealousies."

The India Office has received the following from Viceroy, July 12:—

"A caravan from Canhahar reports at Chaman that Sartip Nur Mahomed was 40 miles west of Girishk on 5th, with four regiments infantry, one regiment regular cavalry, 2,000 irregulars, and eight guns; and that Ayoob was two marches behind at Washir with remainder of force, strength not known. Accuracy of these reports seems doubtful by comparison of distance with date of Ayoob leaving Herat."

The Porte having requested the Khedive not to recognize the French protectorate in Tunis, the Egyptian Government replied that the French Consul-General had been informed that Egypt would act in conformity with the wishes of the Porte in the matter.

New York July 12.

With reference to the papers relating to the Arizona picked up at Schull, which gave rise to the rumour that the vessel had been wrecked, the captain of the Arizona says that on leaving Queenstown he placed a bundle of papers on his cabin table, but they fell on the floor, and the cabinboy afterwards threw them overboard.

The Archbishop of Montenegro has arrived at Rome to effect an arrangement in ecclesiastical matters between Montenegro and the Vatican.

The Italian Government has agreed to restore to the ex King of Naples the 500,000f. dowry of his mother, Maria Christina, of Savoy, with about an equal sum for arrears of interest.

THE UNITED STATES.

Philadelphia, July 12.

The Franco-American Claims Commission has adjourned till October 11. The Commissioner representing France, M. De Geoffroy, has resigned, having gone home on leave. The vacancy will not prevent the filing of testimony or memorials during the Commission's recess.

Cooler weather has succeeded the hot wave. Reports of the effects of the terrific heat of Sunday continue coming in, especially from the West, showing that there were 70 deaths from sunstroke throughout the country; 23 deaths from sunstroke are reported from St. Louis and 21 from Pittsburgh. The heat killed many cattle in transit on the railways. It also almost entirely stopped outdoor work on Saturday and Monday in several of the Western cities. It produced a terrific waterspout near Desmoines, Iowa, causing great destruction from winds and freshets. In some places over four inches of rain fell in one hour on Saturday night. Storms are reported throughout Iowa, impeding the railways by destroying the bridges and washouts. Six persons were drowned, and many persons in the flooded valleys were rescued by boats from the roofs of houses.

Epidemic diseases are reported from Cuba. Havannah reports last week state that there had been 23 deaths from yellow fever and 15 from small-pox.

The President steadily improves. The physicians think that the danger line has been passed. Apprehension is no longer felt about his recovery. His chamber is kept at a steady temperature of 75.

The Garfield fund now reaches $122,755.

To the proposition for a general thanksgiving day 21 American Governors have already assented, including 10 Democratic Governors of Southern States.

The New York City Trade Returns for the past fiscal year show $533,919,916 imports and $417,841,044 exports, which includes specie movement of $110,329,471 imports and $11,022,183 exports. Compared with the previous year, the produce imports have declined $18,000,000, while the exports have increased $14,000,000. The Customs collected in New York during the past year $138,243,982, the heaviest amount ever collected, being $8,000,000 above the previous year.

LATER.

The following bulletin was issued by the physicians at 1 o'clock this afternoon—'The President is passing a comfortable day. His pulse is 100; temperature, 100·8; and his respiration, 24.'

At 2 o'clock, when the President was quietly sleeping, his pulse declined to 96.

Dr Bliss says that he has no symptom which need cause uneasiness.

STATE OF IRELAND.

Dublin, July 12.

The usual meeting of the Land League was held to-day, Mr Sexton, M.P., presiding. Mr Quinn stated that the amount received since the last meeting was £2,154, of which £2,074 was from the Irish National Land League of Boston. The usual remittance from the *Irish World* had not been received. Mr Quinn mentioned that among the remittances received during the week was one of £106, which came from the Irishmen at Sydney, New South Wales, through Archbishop Croke. Applications from local branches for grants to evicted tenants were read; there were altogether 26, and the whole amount of the grants, which were for sums of from £3 to in one case £10 was £137. With such economical management of the treasury, so far as the evicted tenants are concerned, there need be no apprehension of the fund being soon exhausted. There is no further account to show how the large sums received every week are expended, or how the accumulated capital is invested. It must by this time be very large, even allowing that the organizers receive more every week than the tenants. The balance sheet will be a very interesting document if it ever comes to light. The chairman, in the course of his remarks, alluded to the recent action against Mr. O'Gorman, hotel keeper at Charleville, for turning Mr Goddard out of his house, and recommended that the executive should not only indemnify him, but start an independent fund to enable hotel keepers and publicans who were put upon by the police and emergency men to defend themselves.

Belfast, July 12th

The anniversary of the Battle of the Boyne has passed over in the North of Ireland with unusual peacefulness. The celebrations have been looked forward to with much interest, owing to the statements recently put forth by prominent members of the Land League, and particularly by Mr Sexton, M.P., that the Orangemen had largely adopted the principles of the League. The assertion, however, was not corroborated by any testimony supplied by to-day's demonstrations. On the contrary, not for years past have the meetings been so largely attended as those of the present year. At all the centres in the north the demonstrations were very large; the assemblage at Lambeg, about 6 miles from Belfast, numbering 80,000 persons. A procession some three miles long, and which took over an hour passing a given point, left the Ulster capital in the morning to attend the latter meeting, and returned in the evening accompanied, as usual, by flags and music. A few stones were thrown at the processionists both going and returning, but the attack was comparatively insignificant when contrasted with the serious assaults made on former occasions. At Banbridge, the Rev. Mr. Kane had challenged Mr Sexton, M.P., to attend the meeting there and see for himself whether the Orangemen sympathized with the Land League, but the hon. gentleman did not put in an appearance, and Mr Kane declared that he dare not come, and repeated his challenge. Reports from all the districts state that the proceedings everywhere were most enthusiastic.

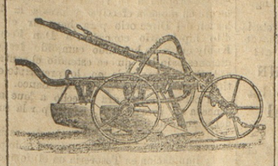
HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.



The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.
The implement is so strongly constructed hat in the hands of Kaffirs it cannot readily be injured.

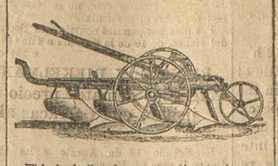
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

PRICES IN ENGLAND.

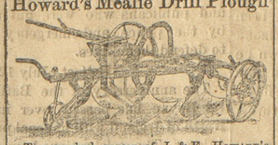
Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.
In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.
By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.
